KONFRONTATION NEDBRYTNINGSPROCESSEN

From the ashes of Bracca 3 and Requiem, Konfrontation was born in 1999. Releases such as Konfrontation (2000), Livslöggen (October 2002) and High flying plans (split 7" w/ Slicks, February 2003), the music has always been raging political crust with dual male vocalists.

- Nedbrytningsprocessen are no exception. Twelve new songs, released as a gatefold 12" LP.

Some line up changes during the years has made the sound more brutal, aggressive and fierce. Nedbrytningsprocessen are probably the most extreme material from the act up to date!

Split release with Dist and Confuzed, Container Rock productions, Not enough Records and Anarkopunx Records.
