

# ANATOMI-71: MOT NYA HÖJDER CD

*Nya Avskum på repeat. Allt är skitbra, allt är skit.*

*Vi är A-71 från kristinehamn. Hopplös stad och dito band.*

Anatomi-71 are back with a vengeance. This is indeed a progression and a step forward from their most excellent HEJ KOM OCH HJÄLP MIG MCD. This time [the act are back] with a complete fulllength; containing thirteen new songs and one re-recording from an old demo.

Although playing crust; this band has something unique on their agenda. Clever and thoughtful lyrics; which make this band somewhat alone in what they are doing and doubtfully will stand out from the rest.

Prepare yourself for a d-beat attack of furious anger; despair and the with the glimpse in the eye. Thus towards new heights.

This is Anatomi-71.
