

AT WHAT AGE DID YOU LOSE YOUR COMPASSION?

MÄSSMÖRD

UNLEASHED 12" LP

Mässmörd are back with their second fulllength album UNLEASHED. The first LP "Inget liv/Ingen död" was brutal as hell, this one is no exception! Still downtuned and dark Swedish hardcore with lots of piercing guitar leads, brutal bass lines, whirlwind drumming, and dual fe/male trade-off vocals. And even though this might fall under the category of modern melodic crust it's overall much faster than the average bands playing similar styles.

Massmord also share/have shared members with Deunga, Article Nine, Beyond Pink and Våning 5 to name a few, and they've brought their earlier experiences into this band creating a varied and thought through debut. Think Wolfbrigade and To What End? mixed with some From Ashes Rise and Kylea.

Don't miss out on the UNLEASHED TOUR JUNE 2007
